Senior Product Manager – Security Services (80-100%)

Description

Do you want to work in a highly dynamic environment? Are you passionate about product development and its impact on business outcomes? Then SIX's Product & Business Development wants to hear from you!

SIX is a collaborative and driven team responsible for the product and services provided by SIX Securities Services. You work closely with various internal and external stakeholders to ensure alignment with business unit mandate and strategy.

Responsibilities

- Elaborate the product strategy and manage the product lifecycle together with relevant stakeholders
- Continuously align products to meet client needs, manage derived activities and initiate measures to push product innovation & growth
- Manage product financials on a contribution margin level, including budgeting, forecasting and reporting
- Take the lead as product owner in product related business projects and initiatives
- Support the product management Team head in strategic planning as well as the implementation of measures
- Play an active role in the further development of the topic Fintech, DLT/Blockchain and the SIX own F10 (Incubator & Accelerator)

Qualifications

- Minimum 5 years of experience in a product management role in the area of Post-Trade services
- Proven experience in the definition of product strategies, the creation of concepts and planning of product initiatives
- Strong analytical/conceptual skills, structured and result-oriented mindset, as well as process thinking and affinity for IT/new technologies
- Talent to work with a wide range of stakeholders across a matrix organization and ability to interact with IT and business analysts
- Experiences in presenting/promoting own products/ services with senior management, committees and customers
- Very good language skills in German and English mandatory, further skills in French, Italian or Spanish are an advantage

Hiring organization

SIX
