## Senior Product Manager – Tokenization

### Description

#### About The Role

- Are you a sharp Product Manager with a thirst for innovation?
- Are you able to strike a balance between dreaming big and delivering an MVP?
- Do you want to make a difference by working in a high-growth startup with highly motivated people who are still fun and down to earth?
- Do you share the belief that Tokenization can improve the growth of the ecosystem?
- Are you passionate about crypto-currencies, blockchain technology and financial products?

If your answer is an exciting “Yes” to these questions, we want you on the Digital Product Management team.

### Responsibilities

- Collaborate with product owners, tech leads and business stakeholders on specifying new product features and improvements of existing functionality with a client centric mindset
- Break down high level business requirements and product ideas into features, user stories, operational and legal processes and clarify business rules in collaboration with different stakeholders
- Drive the long-term strategy and roadmap of the tokenization platform together with the business units
- Engage in thought leadership to make the platform future-proof
- Work closely with the development team to implement product features while ensuring scalability, managing dependencies, and adhering to business and non-functional requirements
- Manage integrations and interfaces with other applications in our product landscape
- Support the run-the-bank organization to identify and resolve production issues
- Ensure that new requirements are consistent with the product scope and vision
- Participate in the entire product development life cycle
- Partner with tech stakeholders to ensure the quality and stability of our products

### Qualifications

#### Requirements

- At least 3-5 years of experience in Product Management, ideally at a fintech, bank, or other digital asset or financial services provider
- Sharp understanding for the business, technical, operational, and legal

### Hiring organization

Sygnum Bank

Sygnum Bank is the world's first regulated Digital Asset Bank and a digital asset specialist with global reach. With Sygnum Bank AG's Swiss banking licence, as well as Sygnum Pte Ltd's capital markets services (CMS) licence in Singapore, Sygnum empowers institutional and private qualified investors, corporates, banks and other financial institutions to invest in the digital asset economy with complete trust.
